DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-21 are rejected under 35 U.S.C. 102(a) as being anticipated by Joseph P.N. 6,456,076.

Joseph discloses actively shielded gradient coil systems for MRI. Applicant's attention is directed to Fig. 13 and corresponding description. Fig. 13 shows a primary gradient coil 300a connected in series with a shielding coil made of two parallel shielding coils 302a and 302b. Note the "multiple lead" principle described by Joseph.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schenck and Punchard et al. disclose actively shielded gradient coils. Note the abstract of each disclosure.
